Why the AVS scheme may be right for you...

Benefit from support and advice

Our dedicated AVS team will help and advise you throughout the process of selling your property. They will keep in contact with you, so we are able to closely monitor the process, and work with your appointed Auctioneer and Solicitor to resolve any problems.

Remain in your home until it is sold

Not only is repossession a stressful experience, but you will have to leave your home on a designated date set by the court. With the AVS Scheme you can remain in your property until the day the sale completes - this means you have more time to find alternative accommodation and can rest-assured that your property is always secure.

Achieve the best selling price

If your property is repossessed, it could stand empty for a significant period of time - this will generally have a negative impact on the market value. It is always advisable to remain in your property to ensure you get the best price possible. By achieving the best selling price, this will allow you to achieve a more favorable solution in relation to any shortfall remaining on your mortgage account.

It is important to remember

There are conditions and timelines you must agree to, and keep, to make sure you can participate and remain in the AVS scheme. Our dedicated AVS team will monitor the progress of the sale of your property at all times and all key decisions including the sale price and any remaining shortfall must be agreed by us before proceeding.

It is crucial you understand, that if you fail to meet any of these conditions you can be removed from the scheme at any time and we may take further action against you - which could result in the repossession of your home.

The AVS process

Assessment of your circumstances

Our team will review your Standard Financial Statement with you.

Return Authority Form

You agree to participate in the AVS Scheme, abide by its conditions, and authorise Pepper to appoint an Auctioneer to manage the sale of the property.

Our Team

Once we have received your signed Authority Form, we will instruct an Auctioneer in your area to act on your behalf. Our dedicated AVS team will assist you and manage the sale of the property with you.

Market appraisal

At least two local estate agents will be instructed to undertake market appraisals of the property. These will be used to set the initial asking price. It is important you co-operate fully during this time and allow access to the property when needed.

Set sale price

A marketing price and a lowest recommended selling price will be agreed between you and us before your property is placed on the market. Please note, that if you cannot agree a realistic sale price you will unfortunately be removed from the AVS Scheme.

Property on the market

During this time it is important that you allow reasonable access to your property for viewings, and consider all offers that are close to the asking price.

Sale agreed

When you receive a reasonable offer on your property, we need you to agree that price with us, and we need to approve any remaining shortfall before you may accept the offer. You will need to instruct your appointed Solicitor to act on your behalf for the sale. Once the price and any shortfall has been agreed and your property is in the sale process, you must maintain regular contact with the Solicitor and return all the required forms and identification.

Sale completed

Completion of the sale should take place within 8 weeks of acceptance of the offer. We will review progress of the sale on a regular basis with both your Auctioneer and Solicitor. Auctioneer and Solicitor's costs associated with the sale will be paid from the sale proceeds, subject to prior agreement with Pepper.

Relocation assistance

Depending on your personal circumstances, Pepper will provide a financial package to assist you in your relocation needs.

Shortfall repayment

As well as tailoring a solution to address your mortgage arrears, any shortfall arrangement we may make with you will be based on your personal circumstances.

During the whole AVS process all parties assisting in the sale of the property will try to maintain contact with you to make sure you have all the information you need on the progress of the sale- so it is important you provide us with accurate and up-to-date contact details.
